

NEW GAS SERVICE CHECKLIST

Name: _____
Address: _____
Customer #: _____

This handy checklist has been prepared to help you complete the necessary steps to get your new gas service. All areas of this checklist must be initialed and dated by the appropriate office before a gas line will be installed, a meter set and utility service turned on. We take this opportunity to welcome you to our family of customers.

ENGINEERING – CITY HALL—ROOM 211 218-730-5200

Sign application for gas line from main to house. Confirm size of service required and meter location. Review seasonal cutoff date for installation. For new construction, gas service installation must be scheduled before yard is sodded.
